

# So light, so easy, just take it.

# aquaProp

Engineered by bonex

## **aquaProp the travel scooter for everybody**

The first compact, travel-friendly underwater scooter which also meets the exacting standards of scuba divers and swimmers. This scooter features a very low weight of just 7 kg and can be used in a wide range of scenarios.

Control of the scooter is possible using one or two hands. With two available speeds, runtimes of up to 200 minutes can be achieved, making it the ideal companion for swimmers, snorkelers and divers.

Its low weight and NiMH batteries mean it can also be transported on airplanes. Leisure equipment which is always at your side and great fun to use.

**Fun in the sea, lakes or pool  
- for anyone who loves the water.**
