

DRYSUIT

GEAR GUIDE

DIVING UNLIMITED INTERNATIONAL

DESIGNING YOUR DUI SYSTEM

This is the fun part! By choosing DUI to keep you warm and comfortable, you give yourself options that no other manufacturer can provide. Use these four steps to help you design your very own DUI.

1. SELECT YOUR DIVEWEAR INSULATION

Consider the coldest waters you will want to dive in and select the insulation for that dive. Being able to layer for that dive means you can wear less for warmer waters. Get everything you need to stay warm with one of our DiveWear Insulation Packages.

2. SELECT THE SIZING FOR YOU

Can you fit into one of DUI's 33 Select sizes for men and women or do you want a made-to-measure Signature Series? No matter who you are, we can fit YOU! And with our color choices, your DUI can be as unique as you are.

3. SELECT YOUR DRYSDUIT STYLE

What is the durability that you need for your diving? What other qualities are important to you? Lightweight, quick drying or bulletproof? Use our Gear Guide to help you decide.

DURABILITY 9

Look for this Drysuit Scale

4. SELECT THE ADD-ONS AND ACCESSORIES

We've got pockets, knee pads, gloves, hoods and more to keep you warm and comfortable anywhere. To make it easy you can select from one of DUI's popular accessory packages.

WARRANTY

DUI offers a 7-year limited warranty against defects in material and workmanship with a 50 year reputation of supporting that warranty.

CUSTOMER SUPPORT

Our customer support is as exceptional as our products. Visit your nearest DUI dealer, contact our DUI Customer Support Team or better yet, come to a DUI **DEMOTOUR** event near you and take a DUI for a test dive!

WELCOME TO DIVING UNLIMITED INTERNATIONAL

...better known around the world as DUI. For 50 years, DUI has been obsessed with keeping divers warm and comfortable in the harshest environments. This healthy obsession has driven our innovative designs, unparalleled dedication to quality and an understanding of the unique needs of divers around the world. That's why DUI has earned a reputation of being the world's leader in drysuits and diver thermal protection.

NO TWO DIVERS ARE ALIKE

Whether you are a sport diver enjoying the lure of a coral reef, a technical diver exploring a deep wreck or cave system or somewhere in between, you have unique needs in your equipment. That is why DUI has the most extensive product offering in the industry for Sport, Technical, Public Safety & Military divers. Each DUI drysuit is individually made to your specifications.

HOW TO USE THE DUI GEAR GUIDE

This guide is the first step in designing your personalized DUI drysuit system. It provides an overview of all the options from which you can choose. For detailed information, you will find website addresses with QR codes to complete your experience online. We have done this because at DUI, we are serious about ocean stewardship. We have chosen this format to minimize waste of our world's resources. We greatly appreciate your support of this endeavor.

Printed on recycled content paper with vegetable-based inks.

Printed in the USA in a facility registered to the ISO 14001 Environmental Standard.

DUI DRYSUITS ARE PROUDLY DESIGNED & MANUFACTURED IN THE USA

NEW GEAR BY DUI

THE NEXT EVOLUTION IN DIVER COMFORT

Most divers think that heated undergarments are for technical divers only. And even then, most on the market are underpowered, poorly designed or unsafe. Until now.

BlueHeat™ is designed for all types of divers:

TECHNICAL DIVERS stay warm during decompression

SCIENTIFIC DIVERS discover that heated gloves give you unprecedented dexterity for underwater experiments

RECREATIONAL DIVERS augment your insulation for ultimate comfort or reduce insulation for more freedom-of-motion

DUI-ONLINE.COM/HEAT

NOW AVAILABLE IN SILICONE

DUI-ONLINE.COM/ZIP

All DUI drysuits include patented DUI ZipSeals! ZipSeals allow for quick replacement of seals on-site. Never miss a dive again! DUI ZipSeals are now also available in silicone – all of the convenience of DUI's patented ZipSeals with the comfort and durability of silicone.

DIVEWEAR PACKAGES ACCESSORY PACKAGES

We've packaged the most popular items to make the planning easy and save you money!

Made with 75% recycled materials
Wear as a base layer under primary DiveWear
Wear as primary insulation in tropical climates
Highly breathable – dries quickly – SPF protection
Excellent for other outdoor activities
Men's & Women's sizes S–2XL

DRYSUITS FOR SPORT & TECHNICAL DIVING

30/30™

Ideal for 30 degrees above and below the equator and perfect for tropical diving. Made with breathable fabric, a closer fit (for lighter insulation) and ankle seals. Excellent for longer bottom times, repeated exposures and multiple days of diving.

DURABILITY 6.5

DUI-ONLINE.COM/3030

FLX EXTREME™

DUI's newest drysuit, the FLX EXTREME is made with polyester/butyl rubber/polyester making it softer to the touch. It is also a little heavier than the TLS350 making it more puncture resistant. What you will love the most about the FLX EXTREME is the way it feels on the body – it's almost like wearing your favorite pair of jeans. DUI adds Cordura® overlays on the legs for even more durability. It is quickly becoming the favorite of exploration divers.

DURABILITY 9

DUI-ONLINE.COM/FLX

TLS350™

DUI's most popular drysuit. Made with nylon/butyl rubber/nylon. Lightweight, fast drying and ideal for travel. The drysuit of choice for underwater photographers, deep cave exploration and even the US Navy SEALs. By varying the insulation underneath, you can use the TLS350 in the warm waters of Florida to the ice-covered seas of Antarctica.

DURABILITY 8.5

DUI-ONLINE.COM/TLS

CLX450™

The CLX450 is often referred to as the "Tuxedo of Drysuits." A well-deserved name with its handsome, Cordura® blend polyester/butyl rubber/polyester material on the upper body that also offers extra durability. The lower body is made with the same material as the FLX EXTREME so it provides incredible comfort. Ideal for wreck divers or hunters wanting extra durability on the upper body and it is used by Army Combat Divers and EOD.

DURABILITY 9.5

DUI-ONLINE.COM/CLX

DIVING UNLIMITED INTERNATIONAL

CF200™

Truly a legend! Only DUI has crushed neoprene. DUI takes 3mm neoprene, builds a drysuit then puts it through a process that actually off-gases the material and crushes it to 1mm. This makes a dense, stretchy material that offers the ultimate in protection from the environment. The drysuit of choice for wreck divers, commercial divers and divers looking for a drysuit that is virtually bulletproof.

DURABILITY 10

DUI-ONLINE.COM/CF

CF200SE

CF200X

FLX50/50™

Just like it sounds, DUI takes the best of both worlds and makes it into one great drysuit! CF200 crushed neoprene on the legs gives you superior durability and lightweight trilaminate on the upper body for extra flexibility. This is a favorite among dive instructors.

DUI also offers the CLX50/50 as a Signature Series with crushed neoprene on the legs and the CLX450 on the upper body.

DURABILITY 9.5

DUI-ONLINE.COM/5050

VALUE-PRICED DRYSUITS

You don't have to be rich and famous to dive DUI! You can have the same premium quality in simpler designs at a lower price.

TLSSE™

Made with the same exceptional material and workmanship as its big brother the TLS350 with a simpler, shoulder-entry design.

DURABILITY 8.5

DUI-ONLINE.COM/VALUE

CNSE™

Durability and simplicity – that's DUI's CNSE. Made with hyper-compressed 1.5mm neoprene, the CNSE is often chosen by commercial divers and divers that enjoy "bottom crawling."

DURABILITY 9.5

DUI's value-priced drysuits do not include ZipSeals™, however they are available at an additional charge.

PUBLIC SAFETY DRYSUITS | EQUIPMENT | EDUCATION

DUI-ONLINE.COM/PUBLIC

DUI KEEPS PUBLIC SAFETY DIVE TEAMS SAFER.

In our Public Safety Diver Workshops, we share our 50 years of experience in the design and manufacturing of drysuit systems and overcoming decontamination obstacles for various mission profiles and diving operations.

CXO™

Designed to be part of a completely encapsulating system, the DUI CXO is quickly becoming the standard for Contaminated eXtreme Operations for Public Safety Diving.

- Polyurethane Laminated Fabric ASTM F739-07
- Polyurethane Zipper
- Contaminated water valves with Fluorosilicone
- Reinforced Pads
- Easy to decontaminate

DURABILITY 9

PUBLIC SAFETY 30/30™

Made with breathable fabric, it is ideal for stand-by and surface support. Excellent choice for helicopter and air rescue.

- Breathable, waterproof fabric
- Public Safety design with durable overlays, reflective tape and markings
- Comfortable and lightweight
- Available in diving and surface support configurations

DURABILITY 7

PUBLIC SAFETY TLS™

The most popular drysuit for contaminated water diving.

- Trilaminar material with butyl rubber layer
- Public Safety design with colorful overlays, reflective tape and markings
- Comfortable and lightweight
- Available in diving and surface support configurations
- Easy to decontaminate

DURABILITY 8.5

DECONTAMINATION SYSTEMS

DUI offers unique decontamination options and systems by partnering with other industry leaders.

COMMERCIAL HOT WATER SUITS

Developed and patented in the early 1970's, DUI Hot Water Systems made diving possible in the North Sea. DUI is still the standard for commercial diving operations around the world.

DURABILITY 9
